

## Material Donations

Thank you for your interest in supporting Schools for Children of Cambodia! At SCC, our programmes are designed to respond to schools' and communities' unique needs in a way that ensures long-term sustainability. As such, the best way you can support the students, schools, and communities we work with is through monetary donations which we will use to address communities' top priorities. Visit [www.schools4cambodia.org](http://www.schools4cambodia.org) for more information on how to make a contribution.

However, if you are interested in making a material donation, we will make sure that it is put to good use. The list that follows is our top needs. We strongly recommend that any materials available in Cambodia be purchased locally to support Cambodian businesses.

Thank you again for your interest and generous support!
